

Organic & Conventional Coconut Water for Private Label

Coconut Water

Aseptic Young Coconut Water in 200L Drums

Coconut water has become a surprisingly exciting business opportunity and it is here to stay due to its all natural and valuable nutrients offered for the daily needs of our body.

Celebrities like Madonna and many others have not only endorsed but have also invested in this natural drink and coconut water has become highly popular amongst many athletes due to its natural hydration.

However, with the increasing competition in the market, it is important to create a coconut water business plan that will help differentiate you from the others and we can help you.

Our Organic coconut water is derived from the young king coconut which is orange in color and sweeter than the young green coconut. We offer our conventional coconut water from the young green coconuts.

The coconut water is 100% natural or naturally flavored.
